The Washington Post on the Impact of Cash Transfers

"If tomorrow a drug was developed that transformed the lives of the world's extreme poor as efficiently as direct cash transfers, it would be considered a revolution in the world of aid."

In an op-ed for The Washington Post, Francisco Toro writes on the impact of direct cash transfers compared to other poverty reduction tools. He cites IPA's [evaluation](#) of GiveDirectly's work in Kenya, as well as our work [reviewing a range of interventions](#).
