Lessons from Teacher Community Assistant Initiative (TCAI) to Policymakers

In early October, Annie Duflo (Executive Director, IPA) presented lessons learned while scaling up TCAI in Ghana to Peru's Ministry of Education. Annie's presentation was part of a series of seminars put on jointly by IPA Peru, J-PAL LAC, and the Ministry's Research and Documentation Unit. While in Peru, Annie also held meetings with other policymakers, including the Vice-Minister of Health and Cuna Más, a child day-care and family coaching program, and local researchers.
