Survey to Monitor Parents' Take Up of Gov't's Remote Education Strategy

Researchers

Juan Manuel Hernández-Agramonte, Olga Namen

Abstract

IPA is providing technical support to the Ministry of Education of Peru on designing and analyzing a survey to monitor the implementation of the national remote education strategy under COVID-19 confinement measure. The survey aims to provide actionable information to the MoE on three main dimensions related to parents: (1) information on the strategy, (2) use of the strategy, and (3) areas of support to improve the delivery and take up.

Project Outcomes of Interest

information on the strategy, use of strategy, learning

Partners

Ministry of Education, Peru

Impact Goals

- Keep children safe, healthy, and learning

Project Data Collection Mode

- CATI (Computer-assisted telephone interviewing)

Results Status
