The Lives They Lead: Exploring the Capabilities of Bangladeshi and Rohingya Adolescents in Cox's Bazar, Bangladesh

This brief draws on mixed-methods data collected in 2019 as part of the Gender and Adolescence: Global Evidence (GAGE) programme—a unique longitudinal mixed-methods research and impact evaluation study that is focusing on what works to support the development of adolescents' capabilities during the second decade of life (10–19 years) (GAGE consortium, 2019 forthcoming). In Cox's Bazar, GAGE partnered with researchers from Yale University and the World Bank to implement the Cox's Bazar Panel Survey (CBPS) in order to provide accurate data to humanitarian and government stakeholders involved in the response to the influx of refugees.
