# RECOVR Zambia Survey, Round 2

## Abstract

Tracking how people's lives are affected by the COVID-19 pandemic can enable policymakers to better understand the situation in their countries and make data-driven policy decisions. To respond to this need, IPA has developed the RECOVR survey—a panel survey that will facilitate comparisons, document real-time trends of policy concern, and inform decision-makers about the communities that are hardest-hit by the economic toll of the pandemic.

## Respondent Population Characteristics

Adults

## Project Data Collection Mode

- CATI (Computer-assisted telephone interviewing)

## Researchers (\*corresponding author)

Shana Warren, Doug Parkerson, Elliott Collins

## Questionnaire File Type

Reader-friendly survey instrument

## Questionnaire Language(s)

English

## Questionnaire Usage Permissions

Use with attribution

## Questionnaire Stage

Data Collection Completed
