2023 IPA Annual Report

Our [2023 Annual Report](#) highlights our ongoing commitment to producing rigorous evidence and accelerated efforts to progress evidence into impact to improve lives and reduce global poverty. It features the publication of the "[Best Bets: Emerging Opportunities for Impact at Scale](#)," a report which represents years of collaboration by hundreds of researchers, partners, and staff—whom we deeply appreciate. Last year, we generated evidence in under-researched areas like human trafficking and intimate partner violence, expanded our policy work to new regions, diversified our researcher network, and accelerated the use of evidence to drive real-world change.
