

Imagine that have **4 Ghana cedis** to spend on things at the shop. There are only three items to buy: socks, shoes, and pencils. Here is what each item costs:

- (01) one pair of socks costs 50 Ghana pesewas
- (02) one pair of shoes costs 2 Ghana cedis and 60 pesewas
- (03) one pack of 4 pencils costs 80 Ghana pesewas

I am the shopkeeper. You should know that I will sell only socks and shoes in pairs, but I can sell you individual pencils. Tell me which items you want to buy and how much of each item. You must spend all of your money.

Once you buy something you cannot give it back again. *[IF RESPONDENT SPENDS TOO MUCH, LET THEM RETRY FOR LAST ITEM]*

Imagine that your family is preparing a meal for tonight, and you have **3 Ghana cedis** to spend on food at the shop. There are only three items to buy: palm oil, rice, and onions. Here is what each item costs:

- (01) one litre bottle of palm oil costs 2 Ghana cedis
- (02) two margarine tins of rice (one kilo) cost 3 Ghana cedis
- (03) six onions cost 1 cedi 50 pesewas

I am the shopkeeper. You should know that I will sell my items to you in different amounts - for example, I can sell you half a bottle of palm oil. Tell me which items you want to buy and how much of each item. You must spend all of your money

Once you buy something you cannot give it back again. *[IF RESPONDENT SPENDS TOO MUCH, LET THEM RETRY FOR LAST ITEM]*
